It class will be saided.

It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount and number of articles commerated in classes headed. Miscellaneous, "are specified as the probable quantity which may be required, as well as to fix data for determining the lowest bid; but the contractor is to furnish more or less of the said counterated articles, and of with times, as the bureau or turnish more or tess of the said chamerated articles, as the bureau of commandant may require, such increase, however, no to exceed one-half of the quantities stated (and requisitions sent through the jost office shall be deemes sufficient notice during the fiscal year ending 30th June, 1860; and whether the quantities required by more or less than those specified, the prices shall remain the same.

more or less than those specified, the prices shall reunsin the same.

All the articles under the contract must be of the
best quality, delivered in good order, free of all and
every charge or expense to the Government, and
subject to the inspection, count, weight, or measurement of the said havy yard, and be in all respects
satisfactory to the commandant thereof. Biddets are
referred to the yard for plans, specifications, or samples, and any further description of the articles.
When bidders shall be in doubt as to the precise articles named in the schedule, they will apply to the
commanding officer of the navy yard and not to enriouse for description of the article or articles in
doubt, which information the said officer will give in
writing. Contractors for classes headed "Miscellancous," who do not reside near the place where the
articles are to be delivered, will be required to name
in their proposals an agent at the city or principal
place near the yard of delivery, who may be called
upon to deliver articles authors delay when they shall
be required.

Approved sureths in the full amount of the converse will be required, and twenty per cantum as ad-

apon to deliver articles in the full amount of the contract will be required, and tweaty per centum as additional security deducted from each payment until the contract shall have been completed or cauceiled, unless otherwise authorized by the Department. On classes of articles leaded "Micoellaneous," to be delivered as required during the fiscal year, the twenty jer centum retained may, at the discretien of site commandant, be paid quarterly on the 1st of January. April, July, and October, when the deliveries have been astistatory, and the balance (eighty per centum with the paid by the respective may agents within thirty days after the presentation of bills in triplicate, only vouched and approved.

No part of the per centum reserved is to be paid

within thirty days after the presentation of bills in triplicate, duly vouched and approved.

No pant of the per contum reserved is to be paid until all the relected articles offered under the contract shall have been is moved from the yard, unless specially authorized by the Department.

It will be stipulated in the contract that if default shall be made by the parties of the first part in delivering all or any of the articles mentioned in any lass bid for, of the quality and at the times and pills—above provided, then and in that case the said parties was offered and pay to the United States a sum of money not to sacquet wice the amount of such clars; which may be recovered, from time to time, according to the act of Congrede and that case provided, approved March 3, 1849.

The sureties must sign the contract, and their responsibility be certified to by a nawy agent, welleving district attorney, or some other person satisfactority, known to the bureau. It is to be provided in the contract that the bureau shall have the power of annulling the contract, without loss or damage to the Government, in case congress shall not have made sufficient appropriations for the articles named, or for the completion of works estimated for, and on which this advertiement is based, and shall also have the power to increase or diminish the quantities named in the classes not headed "Miscellaneous" in the schedule, twent since provided by laster through the post office which some

s whose offers shall be accepted will be no-letter through the post office, which notice

shall be considered sufficient; and if they do not enti-into contract for the supplies specified within fifted days from the date of notice from the bureau of the acceptance of their bid, a contract will be made wit some other person or persons, and the guarantors a such defaulting bidders will be held responsible for all delibrouncies.

all delity queuers.

All offers not made in swict conformity with this advertisement, will, at the option of the bureau, be re-

rerisement, will, at the option of the bureau, or re-cented.

Those only whose offers may be scerpted will be somethed, and contracts will be ready for execution as somether as may be practicable. sept 5—4wlaw

DROPOSALS FOR REVENUE VESSELS

PROPOSALS FOR REVENUE VESSELS

The Department will receive proposals, accompanid by models, plans, and specifications, until 12 o'clock Monday, 30th September, 1861, for the companid by models, plans, and specifications, until 12 o'clock Monday, 30th September, 1861, for the companie of the contraction and equipment of Two Steam Screw Revenue Vessels of 50 tons each, and of Thrue Steam Screw Revenue Vessels of 600 tons each, and of Thrue Steam Screw Revenue Vessels of 600 tons each, and of Thrue Steam Screw Revenue Vessels of 600 tons each United states measurement.

Proposals will only be considered from snecchsful steam shipbutileers actually engaged in that business; and the name of the marine steam expire establishment at which the steam mechinery is to be made must be stated, and will have due weight. The load draft of water of the vessels of 750 tons must not exceed ten (10) feet, and they will be armed with one rifled pivot gun of 8,000 lbs. weight, two 32-pounder guns of 42 cwt., and one heavy nay 24 pounder howiter on the topgallant forecastle. Entrying provi-tions for sixty days, and 2,800 gallows of water in tanks; to be furnished with a condenser for distilling potable water.

The vessels to be schooner-lighed, with flying guff topsalls, square sail, and yard to set flying.

The load draft of water of the vessels of 600 tons must not exceed % feet, and they will be armed, each, with one rifled pivot gun of 6,500 lbs. weight two 22-pounders of 42 cwt, and one light navy 21-pounder for distilling rotable water.

The complement for cach vessel will be 80 persons, carrying provisions for sixty days, and 2,000 gallons of water in tanks, and to be inrushed with a condenser for distilling rotable water.

The proposal must be for the hull, spars, rigging, sails, and canvass work, mast coats, awnings, hammocks and bags, boats, auchors and cab'es, tanks, casks, binnoles, bells, furniture for cabins and ment, and at once proced to see.

The armaments, pare work, osel founders for distilling rotable water for s

The armaments, provisions, nautical instruments and charts only will be provided by the Government.

It is desirable to have the highest obtainable speed, which must be stated in the offer, together with the length of time it can be maintained, and the quantity of coal that can be carried in the bunkers for that speed, which should not be less than for ten days of twenty lour hours each.

The specifications must describe fully the material to be used; the manner and size of fastening the detail of the size, finish, and arrangement of the machinery, and of the various equipments and out sits included in the proposal.

The plans must be working drawings from which the vessel and machinery can be built, showing the allotment of space for acceamodations, steam room, magazince, shell rooms, disposition of coal, and convenient stowage must be provided.

It is to be understood that in the contract a quarance will be insterted of the fulliment of the condition of the draft of water, speed, fuel, satisfactory working of the machinery, and other ponts required, with a forfeiture in case of failure.

The bidders must state the least time, from the signing the contract or acceptance of the proposal within which they will agree to complete the reseels ready for sea, and deliver them at any ports they have have been as and the bids must be accompanied by the guarance required by law, that, if awarded, they will execute the contract.

Payments will be made at four different intervals.

law, that, if awarded, they will execute the contract

Payments will be made at four different intervals
as the work progresses, retraining one fifth (1.5) of
the whole amount for ninety (90) days after the
delivery of the vessel, to repair any defects that
may be discovered within that time on trial at rea.

The Department reserves the right to accept the
proposals made in conformity with the conditions
prescribed, which it may consider most to the intree-ts of the Government, and to combine the greatest
number of advantages, and to reject any or all of
them at its option.

number of advantages, and to reject any them at its option.

A competent person will be appointed by the Department to susperintend the construction and equipment of each of the vessels.

The specifications, plans, and models of parties not obtaining contracts may be withdrawn by them S. P. CHASE.

sep 5—taw Secretary of the Treasury.

S. P. CHASE,

VINTED STATES PATENT OF FICE,

WASHINGTON, Sept. 16, 1861.

On the petition of John F. Winslow, of Troy. N.

Y., praying for the extension of a patent granted to hun on the 18th of December, 18tf. for an improvament in Rolling and Compressing Paddle Balls, for seven years from the expiration of said patent, which takes place on the 18th day of December, 18s1.

It is ordered, that the said petition be heard at the Patent Office on Monday, the 2d day of December next, at 12 o'clock M.; and all persons are notified to appear and show cause, if any they have, why said petition cught not to be granted.

Persons opposing the extension are required to file in the Patent Office their objections, specially set forth in writing, at least twenty days before the day of hearing; all testimony filed by either party to be used at the said hearing must be taken and transmitted in accordance with the rules of the office, which will be furnished on application.

The testimony in the case will be closed on the 18th of November, 18s1, depositions and other sapers relied upon as testimony must be filed in the office on or before the morning of that day; the arguments, if any, within ten days the reafer.

Ordered, also, that the notice be published in the Mational Republican, Washington, D. C., and the Albang Extension America, albany N. Y., once a week for three successive weeks; the first of said publications in the close of the earling.

D. F. HOLLOW AY. All any pressure to the successive weeks; the first or same for three successive weeks; the first or thought of the first or three successive weeks; the first or the day of tions to be at least sixty days previous to the day of tions to be a first or the first or t

DROPOSALS FOR STATIONERY.

TREACHT DEPARTMENT.

THE PROPOSALS FOR STATIONERS.

Supermore 14th, 1861.

The proposals for supplying the Treasury Department with Stationery Deretofore offered being unsatifactory, rew scaled proposals for such supply for the current finel year ending June 39, 1862, will be received until 12 o'clock M on Saturday, the 5th day of October proximo.

Proposals, unaccompanied with satisfactory guarantees for the judiment of the contract, will not be considered, and contracts will be awarded only to established manufacturers of cr dealers in the article.

carbinhed manufacturers of the very best quality.

All the articles must be of the very best quality, and eamples, with the respected prices allacted to each sample, must accompany each bid. The samples of the party to whem the contract may be awarded will be paid for by the Department; those of the unsuccessful bidders will be refured to there. The antiples furnished by bidders under former advertisement well be paid for by the Department, at the prices mentioned to their respective offers.

Each proposal must be signed by the individual or firm making it, and must specify a price, at d but one price, for each and every article contained in the schedule.

price, for each and every article contained in the schedule.

All the articles furnished will be required to be like the samples rubmitted, which will be retined for comperison; and must be delivered without delay, when ordered, to the satisfaction of the lead of the office for which they are required.

This Department, in the examination of the proposals that may be most for war clovery, will not be governed by the aggregate of the lawest offer in awarding the contract, but will have regard to the amount of each article used by it, for which the lowest price may be proposed.

The Department receives the right of ordering a greater or less quantity of each and every article contract, if or, as the public receive may require.

Supplying an inferior a side at any time will be deemed sufficient cause for this the contract.

deemed sufficient cause ic that it is desired to the tract.

Bontle, with approved security, to be given by the persons contracting; and in case of a failure to supply the articles required the contractors and curcions that be liable for the forfeiture specified in such bond as liquidated damages.

The subj lined list specifies, as nearly as can be done, the amount, quality, and description of each of the kind of articles required.

GREELEVS BOURBON 0

FOR THE CURE OF

DYSPEPSIA, INDIGESTION Weakness or Debility, Fintulency and Nauss-Loas of Appelite, Norvousness, Liver Coll plaints, Billous Fevers, and all Diseases of the Stomach, Liver, and Bowels. AS A PREVENTIVE FOR FEVER AND AGGS

THESE BITTERS ARE NOT EQUALLED. 7 J. A A. W. GREELEY, Proprietors, Scatous

THE OBJECT of all medicine is either to pro vent dispase, or to assist flature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform those offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condi-tion alone health and atrength can be preserved. Most of the Ritters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or ex-citing the organi into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the dis-ease, or a prostration of a nervous energy more disastrous than though Nature had been left to

Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its usefulness is being generally acknowledged by the argely-increasing consumption in those sections where it is best known, and by the testimony of many eminent physicians, who have not only made trial of it, but continually prescribe the Bitters in those cases for which it is recommended. AGED PEOPLE, AND ALL WEAKLY

PERSONS, Consumptive patients, and others, whose constitutions have become impared by time, or en-

feebled by discase, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happer adapted for their use. The great

advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred dispases, in the fact that they combine many safe and certain healing properties in connection with the best known stimulant.

DELICATE LADIES Will derive great benefit from it. No unpleas-ant effect will ever result from taking the Bit-

ters, if the directions are followed. For those who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weak-ness, the Bitters are not equalica-As an agrecable stomachio, it is much admired; it sharpens the appetite, brightens the

intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an attack of PEVER and AGUE, or DIARRHEA. Of all the illa that afflict men and women, few are so agenizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Dr. Garrier, a specific has now been obtained. Garrier's Bounton Bitters take straight hold of the disease, and begin a cure. Thousands of well-attested cases of cures of Dyspopsia, Indigestion, and Fever and Ague, even of the most desperate kind, are in

the possession of the proprietors.

Not a few people, everywhere, complain of Weakness or Debility. This is the gentle hint of nature for a little help in the way of invigoration. The hint should not be neglected. "A stitch in time saves nine." Get a supply of GREELEY'S BOURDON BITTERS, take them regularly, and our word for it you will feel better, live oger, be stronger, and think and not with vary much more satisfaction. The Bitters are tonic, and of a nature never before attained in any medicine. It will make the weak strong, the desponding hopeful, the sick well. For any complaint of the Stomach, Liver, or Bowels

there is nothing comparable with this medici

In America, the Liver is the best abused of all

the organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly inoperative. This need not be; on the contrary, it is quite unnecessary. A little common sense, and a sufficiency of Greater's Bousson BITTERS, will keep the Liver right, and make nan a man, and women, now miscrable, quite happy. The Bitters regulate and strengthen the Liver, no less than purify it. The increase of Nervous Disorders, at the present day, is one of the most alarming indi-cations of the age, or rather, would be, were

it not that a most admirable cure had been found. There is not a phase of nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most efficient manner. All who are unfortunately afflicted with complaints of this nature, or with indigestion, or any diseases of the Stemach, should not fall to make use of GREELET's BOUR BON BITTERS.
Chills and Fever. In many portions of the United States, this terrible disease seizes its victims as naturally as water seeks its level. The

system, in a particular condition, invites it.

The right medicine to prevent and cure this malady, we unbesitatingly say, is Garrier Housen Birthas. It breaks up the fever, drives it from the system, and will keep it at bay, if taken in accordance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the con-stitution. As an agreeable tonic, these Bitters have no equal.

DR. A. ZAPPONE, Instructor and Licentum of the property of the Bitters and Licentum of Physiology, Chemistry, Botany, and other branches of Science connected with Medicae. Also, Teacher of French, Spanish, Italian, Gernan, Portuguese, Latin, Greek, and other Languages. Office, No. of K street, being near Pennsylvania avenue and Twenty-Bith street sept 6—tf
